

Deep River Science Academy® (DRSA) RESIDENCE/RECREATION SUPERVISORS

The Res/Rec Supervisor Positions will interest undergraduates of science, arts or recreation programs, looking for a summer job working with teenagers in a science enrichment program.

For 6 weeks, supervisors live and work at the Deep River Science Academy residence during evenings (from 4 p.m. until 7:30 a.m.) and full days on weekends. Accommodation and meals are provided while in residence.

Before the students arrive, the Res/Rec Supervisors prepare recreation equipment, install computers and assist office staff with registration preparations for the high school students.

During the 6-week program specific duties include: supervising the students at all times that they are not on a project job site and under the supervision of their tutor; ensuring that the students are prepared for project attendance each day and that they are safely transported to and from the project site; maintaining strong and continuous communication with all students; and under the direction of the Program Director, help to plan and oversee recreational activities for the students.

Res/Rec Supervisors also assist students with homework and mentor high school students through a challenging program.

DEADLINE FOR APPLICATION February 1, 2010

Work Experience Locations:

- Deep River, Ontario

Required Qualifications:

- Registered in Post-Secondary Program
- Studying Science or Engineering is an asset
- Studying PhysEd or Recreation is an asset
- Experience tutoring and working with teenagers is an asset
- Canadian Citizen or Permanent Resident
- First Aid and CPR training

Rate of Pay:

- \$85 per day plus \$10.00/hour for office work (2009 rate)

Work Experience Duration:

- June 20 through to August 8, 2010

Other Information:

- Accommodation and meals at the residence are provided by the DRSA.
- Transportation is the employee's responsibility – must have a vehicle.
- Res/Rec Supervisors are responsible for managing a petty cash for incidental purchases
- Successful applicants will be contacted for a telephone interview.

Work Term:

The position starts one week before the students arrive and ends once the high school students have completed their 6-week program. There is office work before the 6 week program begins.

Res/Rec Supervisors will work with their supervisor to discuss the details of the job and prepare the camp for registration. A detailed handbook is provided prior to starting the position.

Note: This position requires certification in First Aid and CPR and a Criminal Reference Check.

Application deadline: February 1, 2010
